Good afternoon, For those of you who participated in today's Energy Liaisons meeting, thank you. For those of you who did not attend, here's a quick update. Attached is a DRAFT memorandum regarding a new department-wide initiative to address project and permitting backlogs across Interior, including harmonization and coordination of environmental review. Please review the attached draft document and suggest changes to be sure it includes your subject matter area (such as off-shore, or a pipeline crossing a national park). Objective is to be Department-wide and inclusive. This is not a regulatory review initiative (which is separate and on-going), This task force concerns internal protocols and coordination. Kindly provide your comments to the attached in any manor convenient to you by close of business tomorrow (July 18, 2017). Thank you very much, and I look forward to working with each of you towards Department-wide improvement. Always, contact me for any reason. Best, Vincent 202.208.2884

<Counselor's Energy Task Force DRAFT BOEM Edits 7_18_17.docx>

DRAFT – DISCUSSION PURPOSES ONLY

**INFORMATION/BRIEFING MEMORANDUM
LIAISONS TO THE COUNSELOR**

DATE: July 14, 2017

FROM: Vince DeVito, Counselor to the Secretary for Energy Policy

SUBJECT: Counselor's Energy Task Force

The purpose of this memorandum is to provide an update on the Department of Interior Energy (DOI) Task Force (Task Force). Consistent with Secretarial Order 3354 - Supporting and Improving the Federal Onshore Oil and Gas Leasing Program and Federal Solid Mineral Leasing Program, the purpose of the Task Force is to assist the Department with expediting the leasing and permitting of energy and minerals. This includes the processing of Applications for Permit to Drill (APDs), oil and gas leasing Expressions of Interest (EOIs), coal leasing actions, and energy-related rights-of-way (ROWs) applications.

BACKGROUND

The President believes that “a brighter future depends on energy policies that stimulate our economy, ensure our security, and protect our health.”¹ The Secretary also has made “Making America Safe through Energy Independence” a priority for the DOI. Accordingly, the DOI is actively moving towards a streamlined approval process for America's energy and minerals resources on Public Lands.

As of June 2017, within the Bureau of Land Management (BLM) there was a backlog of approximately 2,885 APDs, 7,180,000 acres of nominated EOIs, 48 pending coal leasing actions, and 566 pending oil and gas ROW pipeline applications. There are various reasons for these backlogs. These reasons include shortages of resources (staffing), involvement of other surface management agencies, pending National Environmental Policy Act (NEPA) compliance actions, and ongoing tribal consultation. A Task Force will ensure coordination across the DOI bureaus and with other Federal agencies, states and stakeholders as necessary, to expedite energy and minerals development in an environmentally sound and balanced manner. A Task Force charter and accompanying Memorandum of Understanding, both currently in draft, are to provide the framework for this coordination.

DISCUSSION

In order to address the backlog of pending actions, the Interior Office of the Secretary (IOS) intends to expedite the completion of planning efforts, collaborate with all bureaus within DOI and agencies outside of DOI, and coordinate resource needs among relevant states.

To accomplish these goals, the IOS is establishing the Task Force to monitor significant actions and resource needs in the field, identify trouble spots, and solve resource shortages. Through

No problem - two questions:

1) What time do you need to leave on Wednesday?

2) Would you prefer to do briefings with the Mexican delegation as scheduled on Wednesday, or focus on internal briefings (like the resource assessment briefing for Eastern GOM and the Atlantic)? If it is the later, we could set up a short meet and greet with the Mexican delegation before the lease sale starts (or right after it ends) and then have internal briefings lined up for you separate from them.

Thanks,
Emily

Amendment aimed at offshore wind unnerves some in oil industry

By Esther Whieldon

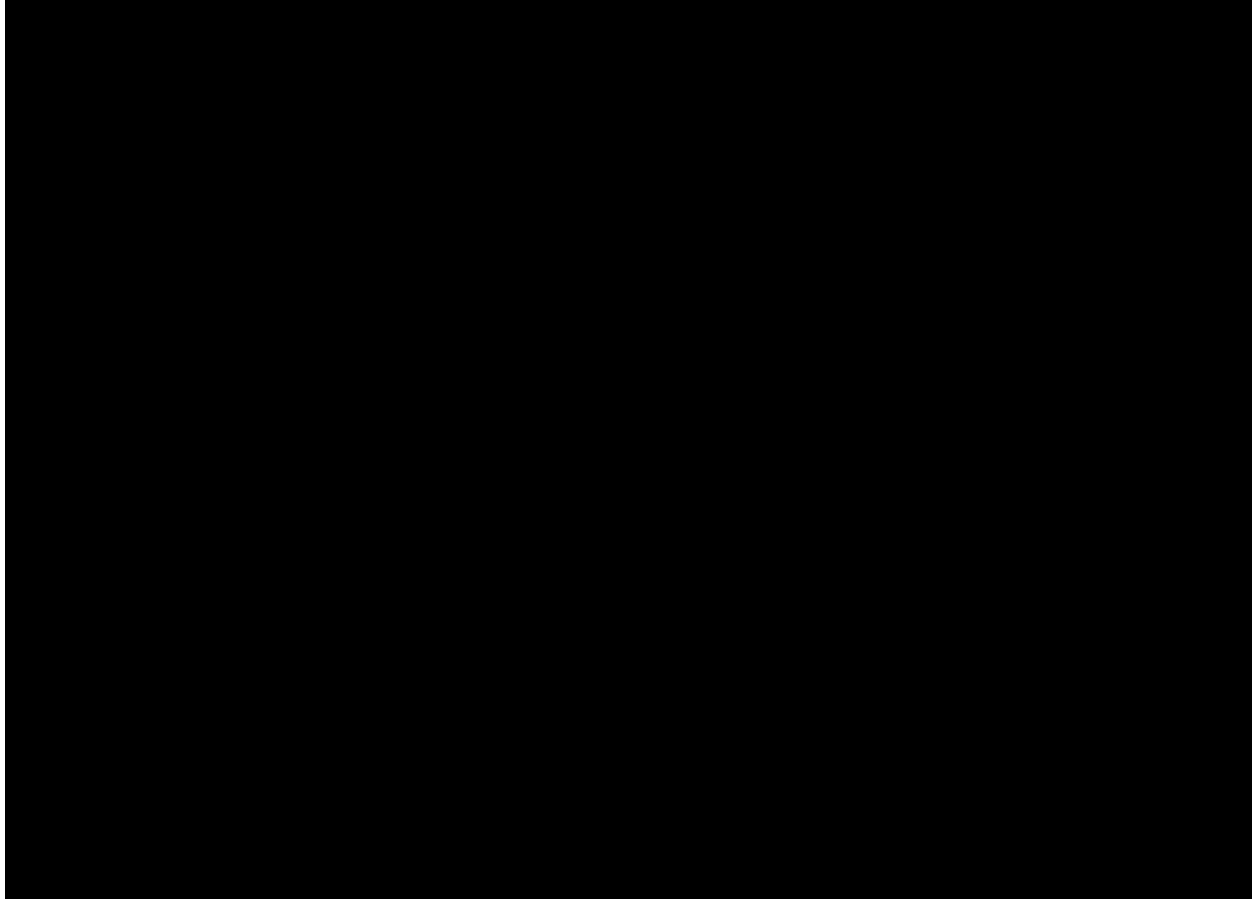

09/07/2017 12:54 PM EDT

The offshore oil and wind industries are joining forces against a Republican spending bill amendment they worry will imperil them both.

Vincent,

Here is the current version of the PowerPoint for the Secretary's briefing.

We will print larger versions of the maps on slides 5-11 for the briefing.

Walter

<vincent_devito@ios.doi.gov> wrote:
Hi,

Do either of you happen to know if we responded to Gov. Cuomo's letter?
Thanks.

On Tue, Oct 3, 2017 at 8:34 PM, Devan Cayea
<Devan.Cayea@exec.ny.gov> wrote:
Dear Mr. DeVito,

Please find the attached letter from Governor Cuomo to Secretary Zinke, which requests that BOEM takes the necessary steps to expedite the identification and leasing of at least four Wind Energy Areas in an area identified by New York State as being best suited for offshore wind development. The designation of this area, the Area for Consideration, comes after extensive stakeholder outreach - including robust engagement with fishermen and the fisheries industry - and input from over twenty studies and surveys undertaken by New York State. The complete submission was sent to Acting Director Walter Cruickshank on September 29, and is again attached here.

New York State appreciates our continued collaboration with BOEM and the Department of Interior. Please feel free to contact me if you have any questions upon review.

Sincerely,

Devan Cayea

Washington Office of Governor Andrew M. Cuomo

Date: Wednesday, July 18, 2018 7:59:42 AM

Thank you for the meeting preparation material. Very helpful.

On Jul 17, 2018, at 11:57 AM, Bennett, James <james.bennett@boem.gov> wrote:

The State has confirmed moving the late afternoon meeting to 10:30 in the morning. The attached background materials reflect that change (although that first earlier 10:30 meeting is still called "Meeting 2").

Please let us know if you have any questions.

My cell # is included below and I have yours from our NJ trip. Should be arriving in Providence @ 9:40 a.m.

FISHING GEAR CONFLICT PREVENTION AND CLAIM PROCEDURE

OVERVIEW

As good neighbors and fellow ocean users, Deepwater Wind (DWW) recognizes the possibility of offshore wind activity and commercial fishing gear encounters. We believe that with proper communication and training, there will be limited gear interactions, if any, in connection with the installation and operation of our offshore wind farms. In the event that there is a gear loss caused by or resulting from DWW's activities, we have provided a claim / damage procedure below. The prevention procedures are by no means exhaustive and will continue to be modified and improved.

MEASURES TO PREVENT GEAR LOSS

1) Communication: What's happening, where, when?

- **Dockside:** DWW Fisheries Liaisons work with port Fisheries Representatives to identify mariners that fish in areas where on-water work is planned and communicate to those fishermen directly
- **Website:** Information for Mariners page on www.dwwind.com will include project specific information and details for on-water activities including vessel names and how to contact them
- **Notice to Mariners (USCG):** Notices broadcast by USCG via VHF and available online at www.dwwind.com
- **Jump drives:** loaded with locations of existing facilities, areas planned for construction, are available from DWW Fisheries Liaison or port Fisheries Representatives
- **VHF updates** daily at 6am and 6pm: survey / construction vessels to broadcast plan of activities for next 24 and 48 hours, from VHF CH. 16, vessel will choose working channel to broadcast project updates (geographic specific). Updates will also be posted to DWW website and Fisheries Liaison will inform port Fishing Representatives
- **Transit routes:** Project vessels will attempt to follow general transit routes to and from port, as safe navigation practices permit

2) Training:

- All personnel working offshore for DWW will be trained on these procedures and on how to identify/avoid fishing gear
- All contractors working for DWW will be given a briefing on the importance of the local fishing communities and instructed to communicate early and often with fishing vessels while always following USCG Rules of the Road

3) Lessons Learned:

- Make best efforts to gather feedback and continually improve communication on vessel activities
- Incorporate lessons learned from previous interactions with local vessels
- All vessels including DWW project vessels and individual fishing vessels should make best efforts to avoid gear loss and follow prevention best practices.

Hi - materials for the Gulf of Mexico visit are attached for Vincent. I am including the agenda for the Mexican delegation meetings as FYI only. If he arrives in time on Tuesday night and would like to join us for dinner, please have him send me an email and I will send him the logistical information. We can also arrange for someone to pick him up at the airport that night if needed.

My personal cell while traveling is (b) (6) if he needs anything - I will also be available via email. Contact information for staff in the building (to assist with security) are listed on the agenda, but we will also plan to have someone waiting for him in the lobby of the office building at 7 am on Wednesday morning.

Thanks,
Emily

MEXICO OFFSHORE OIL AND GAS BRIEFING PAPER

OVERVIEW

In 2015, Mexico was the third largest offshore oil and gas producer in the world after Saudi Arabia and Brazil. Oil is critically important to Mexico's economy as earnings from the oil industry account for approximately one-third of total government spending. Nearly half of Mexico's oil production comes from two offshore fields in the Bay of Campeche, Ku-Maloob-Zaap and Cantarell. Mexico's other offshore oil production area is to the southwest of the Bay of Campeche, near the state of Tabasco. Mexico is believed to have significant hydrocarbon resources in the deepwater Gulf of Mexico, but these resources have not been developed. Mexico's total oil production has declined approximately 27 percent from its peak in 2004 as a result of production declines in its large shallow water offshore fields.

ENERGY REFORMS

To address declines in oil production, Mexico launched energy reforms in 2013 that ended the 75 year monopoly of Petróleos Mexicanos (Pemex) by allowing private companies to explore for and produce oil in Mexico's Gulf of Mexico waters. It also strengthened federal entities with regulatory roles in the hydrocarbon industry, including the Ministry of Energy (SENER), the Ministry of Finance, (SHCP), and the National Hydrocarbons Commission (CNH). It also created the Agency for Safety, Energy and Environment (ASEA).

SENER is responsible for setting Mexico's energy policy regarding the exploration and extraction of hydrocarbons, including issuing Mexico's Five Year Oil and Gas Plan (2015-19), which identifies the blocks that could be offered in bidding rounds. SENER selects the bidding areas and designs the contracts and terms under which the bid rounds will be carried out. SHCP is responsible for setting fiscal terms and conditions in auctions and contracts. It also establishes the variables to be used in the bidding process. CNH is responsible for regulating oil and gas activities, including proposing to SENER the areas to auction, conducting auctions, awarding and administering contracts, reviewing exploration and development plans, authorizing seismic studies, and managing a data room of seismic data. ASEA is responsible regulating environmental and safety issues associated with oil and gas.

ROUND ZERO

As stipulated in the constitutional reforms, Pemex was allowed first refusal in developing Mexican resources before private companies began bidding. This phase was known as Round Zero and resulted in Pemex being awarded the right to develop 83% of Mexico's proved and probable oil reserves and 21 percent of its prospective reserves in 2014. As part of Round Zero, Pemex was awarded areas in the Perdido Fold Belt, near the U.S. border, and it has drilled 2 wells very close to the border. In December 2016, CNH selected BHP Billiton to partner with Pemex to develop the Trion oil field in the Perdido Fold Belt.

**CNH-SENER-SHCP Delegation Visit to BOEM Gulf of Mexico Region
August 15-16, 2017
Agenda**

All meetings will be held at:

BOEM Gulf of Mexico Regional Office
1201 Elmwood Park Blvd.
New Orleans, LA 70123

Tuesday, August 15

12:00 pm – 12:45 pm – Introductory Session

- Introductions (5 mins)
- BOEM Overview (15 mins)
- SENER-CNH Overview (15 mins)
- Discussion (10 mins)

12:45 pm – 2:30 pm – Planning for Offshore Oil and Gas Leasing and Five Year Programs

- BOEM Presentation (40 mins)
- SENER Presentation (40 mins)
- Discussion (25 mins)

2:30 pm – 3:00 pm – Break

3:00 pm – 4:30 pm – Leasing Process and Leasing Fiscal Terms

Topics:

- 1. Steps in the leasing process*
- 2. Qualifications process for lessees (including restrictions)*
- 3. Leasing fiscal terms and economic conditions – overview of terms/conditions and how they are developed*

- BOEM Presentation (30 mins)
- SHCP-CNH Presentation (30 mins)
- Discussion (30 mins)

Overview of Exploration and Development Plan Approval Process

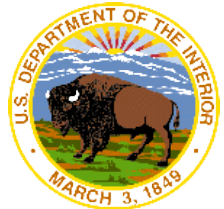

CNH-SENER-SHCP Delegation Visit

August 15-16, 2017

Bureau of Ocean Energy Management

Financial Assurance and Risk Management

**Visit to BOEM Gulf of Mexico Region
Energy Counselor
August 15-16, 2017
Agenda**

All meetings will be held at:

BOEM Gulf of Mexico Regional Office
1201 Elmwood Park Blvd.
New Orleans, LA 70123

BOEM Contacts at Building:

Michele Daigle: 504-736-2681
Mary Sandolph (Mike's Administrative Assistant): 504-736-2592
Mike Celata: 504-736-2448

Tuesday, August 15

Evening

If you are available: Dinner with BOEM group. Location and time TBD – will be provided via email on Tuesday if you can join us based on your flight schedule.

Wednesday, August 16

7:00 am – 9:00 am	Lease Sale Preparation
9:00 am – 11:00 am	Lease Sale 249 (estimated time)
11:00 am – 11:30 am	Break
11:30 am – 1:00 pm	Briefing on Resource Assessments for Eastern Gulf of Mexico and Atlantic (<i>lunch will be delivered</i>)
1:00 pm – 2:15 pm	Post-Lease Sale Topics [with Mexican Delegation] <i>1. Lease sale mechanics</i> <i>2. Evaluation of lease sale bids, including Fair Market Value determination</i>

**Subject:** Re: FAST 41 Initiation Notice -- Bay State Wind Project

Mr Kalpin,

Thank you again for your interest in initiating your project as a covered project under FAST-41. Based on the FAST-41 Initiation Notice (FIN) submitted for Bay State Wind, we have concluded that additional information is needed to initiate Bay State Wind as a covered project under 42 U.S.C. § 4370m(6). Please find the full explanation attached which describes when a proposal is ready for initiation as a covered project at the Department of the Interior. We look forward to your engagement in the pre-initiation planning process, and expect to provide a prompt response once you have re-submitted the FIN with the necessary information.

Regards,

**James E. Cason**

Associate Deputy Secretary  
Chief Environmental Review and Permitting Officer  
Department of the Interior

Dear Sir/Madam,

On behalf of Bay State Wind LLC (“BSW”), please find attached a FAST 41 Initiation Notice (“FIN”) for the Bay State Wind Project. BSW is proposing to construct and operate an offshore wind project with a nameplate capacity of up to 1600 MW off the coast of the Commonwealth of Massachusetts within the area encompassed by Commercial Lease of Submerged Lands for Renewable Energy Development on the Outer Continental Shelf (OCS-A 0500), which was issued to BSW by the U.S. Bureau of Ocean Energy Management.

Please do not hesitate to contact me if you have questions or need additional information.

Best regards,

Mark
